Hi Nicolas,

sorry for reacting so late. We are still looking for the file right now. After so many projects it sometimes takes a bit longer to find them.

Maybe to speed up things, it would be good that you use your backup file on this. We have no problems with that.

Best regards,

Udo

Hello Udo,

No worries, I understand.

Just to be 100% clear with your last sentence: Elektor gives its ok for me to put the GBDSO ROM file (my backup) on a publicly accessible repository on github where anyone will have access to it?

Best regards,

Nicolas

Hello Nicolas,

yes, that is fine for us.

Hi Udo,

Great! That is awesome, thank you!

Best regards,

Nicolas
